A+
- **Punjab Group of Colleges** **2021-2023**
FSC(Pre-Engineering)
A
- **National Textile University, Faisalabad** **2023-2027**
BS Software Engineering

SKILLS

- Professional Level of HTML, CSS and JS (front-end developer)
- Grip on coding languages like C++, C# and python
- Grip on software engineering fundamentals
- Knowledge about different Algorithms of AI
- Good Communication and problem solving Skills
- Video Editing

PROJECTS

- **Employee Management System**
It is a web form base project and i code it in C# (coding language) connected with DB.
- **Hostel Management System**
Hostel Management System a secure, efficient, and user-friendly platform for managing hostel operations.
- **Pro-Voice desktop AI system**
In this project i use different concepts of ML and different Libraries of python as it is code in Python. It can do multiple functions just on your voice commands.
- **Blog Management System**
A fully Responsive online system build with modern design principles.
