TAIBA RAMZAN

SOFTWARE ENGINEERING STUDENT · FULL-STACK MERN · MOBILE APPS · AI & AUTOMATION

Faisalabad, Pakistan | taibaramzan699@gmail.com | **GitHub** | **LinkedIn**

PROFESSIONAL SUMMARY

Software Engineering undergraduate at National Textile University with a strong interest in Full-Stack Web Development, Mobile Application Development and AI-powered Automation. Experienced in building responsive web applications with the MERN Stack (MongoDB, Express.js, React.js, Node.js), developing RESTful APIs and creating user-focused software solutions. Hands-on with Flutter, Firebase, Python, Gemini AI and n8n automation. Completed internships at Balash Tech and Softxcape Developers, plus the national ACT AI programme. Seeking internship and entry-level software engineering roles.

EDUCATION

BS Software Engineering *2023 – 2027*

National Textile University, Faisalabad

EXPERIENCE

Software Engineering & Web Development Intern *2026*

Balash Tech — Faisalabad, Pakistan

- Worked on practical software engineering and web development tasks in a professional environment, applying academic knowledge to real project work.
- Gained hands-on exposure to software development practices, web technologies, problem-solving, task management and collaborative project work.
- Awarded an Internship Completion Letter (Sept 2026) recognising positive attitude, professional conduct, openness to feedback and commitment to assigned tasks.

Frontend & Backend Developer Intern *March 2026 – Present*

Softxcape Developers — Lahore, Pakistan / Liverpool, UK (Remote)

- Contribute to both frontend and backend development tasks, assisting the team in delivering high-quality web and software solutions.
- Gain hands-on experience with modern development stacks and tools under the mentorship of experienced developers.
- Participate in client prospecting and business development activities alongside core technical responsibilities.

PROJECTS

- **AI Learning Companion** | *TypeScript · React · Next.js · Python*
  AI-driven learning assistant that helps students study smarter through personalised explanations, quizzes and progress tracking in a responsive interface.
- **Vyntra — AI Chatbot** | *Python · Streamlit · Gemini AI*
  Context-aware chatbot built with the Google Gemini API, delivering fast responses through a clean, interactive chat interface with authentication.
- **Skill Builder App** | *Flutter · Firebase · Dart · Firestore*
  E-learning mobile app with course management, lecture tracking, Google authentication, community interaction and real-time progress monitoring.
- **n8n Automation Workflow** — Automated workflows connecting APIs and streamlining repetitive tasks.
- **Blog Management System** — Responsive blog platform to create, edit, delete and manage content.
- **Hostel Management System** — Platform simplifying room allocation, resident records and hostel operations.

TECHNICAL SKILLS

Languages	JavaScript, Python, C++, C#, Dart, HTML5, CSS3
Frontend	React.js, HTML5, CSS3, JavaScript, Responsive Design
Backend	Node.js, Express.js, REST APIs
Databases	MongoDB, MySQL, Firebase Firestore
Mobile	Flutter, Firebase Authentication
AI & Automation	Gemini AI, n8n, Prompt Engineering, Generative & Agentic AI tools
Tools	Git, GitHub, VS Code, Postman

CERTIFICATIONS & TRAINING

- **ACT AI — National AI Training Programme, Cycle 1** *8 June – 29 July 2026*
- Prime Minister's Youth Programme with HEC & NAVTTC (AI SkillBridge). Selected among the top 6,000 of 80,000+ applicants nationwide.
- Completed all requirements (proctored midterm, final assessment, Final Course Project) across AI Foundations, Generative AI, Agentic AI, AI Tools & Productivity and Freelancing with AI.
- Certificate No. ACTAI-C1-2026-00694-8BTU — issued 29 July 2026.
